To:

Director of school

Greetings. Mr. <name>

I am writing to express my interest in working in your school.

Before teaching Business Management in DP, I worked as Senior Project Manager for international companies in the manufacturing, banking and consulting sectors; I have a broad range of experiences and know how in accounting, operations, logistics and marketing.

My strong characteristics are: excellent time management skills, organizational skills, stress resistance and strong orientation to the result; I welcome new challenges and I am always looking for improvements. In my year of teaching I have refined my teaching technique, allowing me to finish the DP BM curriculum in one year and a half, leaving to students 4 months for the preparation to the exams. As a DP Core Coordinator, I managed to have all the DP students complete their EEs during the first DP year; with the most motivated students I managed to also to have their CAS completed during the first DP year.

My management style is leading by example; this allows me to inspire both students and colleagues to improve and reach higher standards, maintaining a positive attitude, even in difficult situation. I am also very empathetic and I am always ready to listen to people, understand their perspective and accept suggestions.

I consider efficiency and quality two non-negotiable prerequisites; thus, beside by efficiency, I can say that my students have a 99% pass rate and 70% of them received grades between 5 and 7.

As a CAS Coordinator I was tasked to solve the problem of several students struggling to complete their CAS portfolio; through workshops and consistent planning and control I was able to reach a 50% rate of students completing their CAS portfolio during the first year of DP Program.

As a DP Core Coordinator, I was tasked to solve a similar problem for TOK and EE; again, workshops with students and teachers, along with an efficient planning and control, allowed me to reach a 99% ratio of students finishing their TOK Exhibition in the first DP year, 99% ratio of students finishing the TOK Essay by the 1st term of the second DP year, and a 95% ratio of students finishing their EE by the end of the first DP year.

During these years of teaching, I was also able to improve my pastoral care skills; as a homeroom teacher I dealt with problematic students and I managed to improve their general behavior and to earn their respect; in one occasion, due to a temporary absence of the pastoral coordinator, I had to step in for a month, and deal with issues related to safeguarding.

Due to my previous working experience, I have consolidated skills in managing people and teams of diverse nationalities; I have an eye for business process optimization and for budget saving. During my 10 years in teaching, I seldom witnessed the above-mentioned skills in schools' managers, and that makes me confident to be fully able to cover roles as Headteacher or school's director.

I would welcome to discuss my qualifications further and how they can be useful to your school.

Thank you in advance for considering my application.
